

0 Wait Range Anxiety-Free

All kinds of tricycles

Simple installation

No complex operations, effortless setup

Smart control

Automatic shut-off when fully charged, safe and worry-free

Charge while moving

Dual operation of driving/charging, all-day endurance

Unlimited range

Solar energy assistance, boundary-free endurance

Eco-friendly

High impact
resistance

Superior
waterproofing

Low-voltage
safety

Extended
lifespan

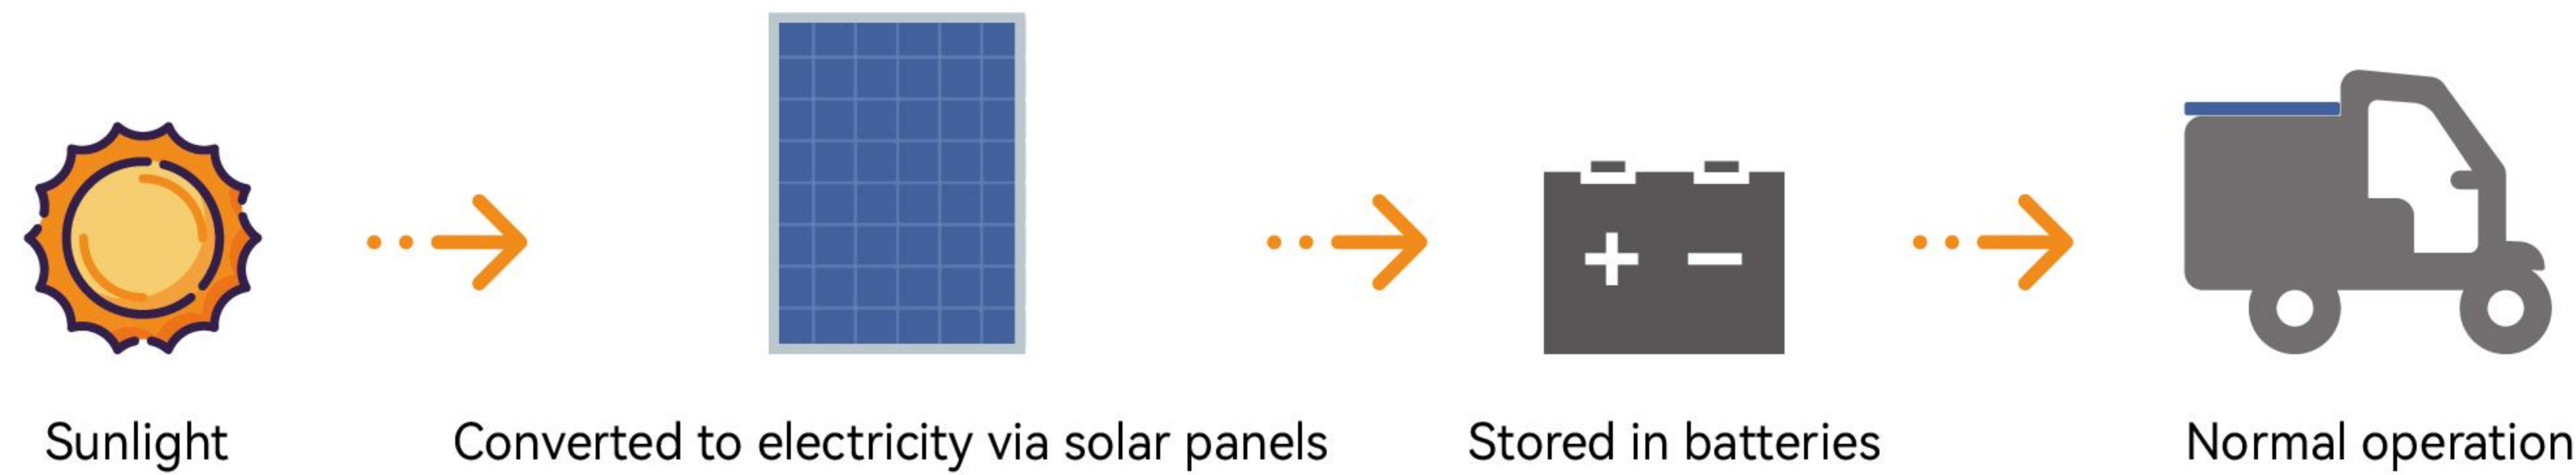

Range
enhancement

Heat
reduction

System Connection Diagram

PV Configuration			
Module Power (W)	300	430	580
Module Dimensions (mm)	1640×880×30	1722×1085×30	2278×1134×30
Daily Generation (kWh)	1.2	1.72	2.3
Recommended Models	Top	Top	Roof-mounted modules over driver seat

*Daily generation calculated based on 4h average peak sunlight hours in usage area

PV Installation Types

Adjustable vehicle-mounted bracket (Drilling installation)

Traveller bracket design (Snap-on installation)
